Inter-school Subdivided Flats Children Exhibition Tour (QSHK)

As one of the five participating schools for the Subdivided Flats Exhibition Tour, organized by the Quality Schools in Hong Kong (QSHK) programme, our students have produced two music videos to be displayed in a remodeled subdivided flat exhibit. Inspired by this exhibit, our students also created some new Chinese words to demonstrate the difficulties that children face living in subdivided flats. The exhibition tour aims to arouse the public's awareness of the wealth disparity in Hong Kong and the lack of wellbeing of children living in these squalid conditions.
